

LEO General Trading L.L.C.

World Class Industrial Sourcing Solutions

Leo General Trading LLC was established in the year 2005 at Business Bay in Dubai to provide world class sourcing solutions to the Packaging, Textile and Manufacturing industries. Our primary products include Aluminum Foils, Pigment Powders for different kinds of Coating, Polyester Film, Acrylic Fibre and other raw materials.

Presently, we have also ventured into supplying different kinds of Machineries, Equipment, Spare Parts and Machine Accessories essential to the operation of all kinds of manufacturing facilities in the GCC region.

Company Objective

To be the primary provider of raw materials and industrial machineries to manufactories in the Middle East. To achieve that goal, our research teams fully understand customer requirements in order to provide precise grades and high quality raw materials from across the world in a timely and economical manner. In order to constantly achieve our objective we have established the following company policies:

- Strive to provide the highest level of performance in terms of resources, manpower and operating services.
- Establish and maintain clear lines of internal and external communications at all times.
- Set quality objectives and regularly review the same to meet the needs of the day.
- Work closely with all our clients to ensure our products and services conform with their requirements.
- Keep our staff updated and enhance potentials through multiple training programs and career development activities.
- Ensure that these policies are understood and implemented in letter and spirit throughout our organization.

Our Strength

We are closely connected with verified and quality certified suppliers of different countries in Asia, America, the EU and Russia. Our primary concern is meeting customer requirements to ensure their satisfaction.

Some of the countries whose manufacturers and suppliers who we share a long and mutually beneficial relationship with:

- Korea
- China
- Russia
- Taiwan
- Belarus
- India

Primary Products:

- Packaging Films – Polyester, BOPP, CPP and PE
- Aluminum Foils for lamination and lidding
- LLDPE, LDPE and HDPE

Supplier Evaluation

New suppliers are evaluated and existing suppliers are monitored for all their process and product quality processes. The company's Managing Director establishes criteria for supplier selection and our teams accordingly conduct supplier evaluations. An Approved Suppliers list is maintained and orders may only be placed with vendors that are on the list or those that come with the highest recommendations from existing customers.
